

Privacy Policy — ICN TikTok Content Tool

Last updated: June 12, 2026

1. Overview

This Privacy Policy describes how the ICN TikTok Content Tool handles information. This application is a personal tool used solely by its owner and is not available to the general public.

2. Information We Collect

This application does not collect, store, or share any personal information from third parties. The only data processed is:

- TikTok account access tokens (used solely to upload video drafts to the owner's own TikTok account)
- Video content and captions created by the owner

3. How We Use Information

Data accessed through the TikTok API is used exclusively to upload video drafts to the owner's TikTok account and to retrieve basic account information required for API authentication. No data is sold, shared, or transferred to any third party.

4. Data Storage

Access tokens are stored securely within the automation platform (Make.com) and are not stored in any external database or shared with others.

5. Third-Party Services

This tool integrates with: TikTok API (developers.tiktok.com) for content posting, Anthropic Claude API for script generation, and Google Drive for file storage. Each service is subject to its own privacy policy.

6. Contact

For any privacy-related questions, contact: iconnexthailand@gmail.com
